

Field Service, Repair and Maintenance Solutions

Exceptional service performed by experts

Preventative or emergency service performed by factory-trained technicians

One of the best ways to ensure that your system operates at peak efficiency is to perform preventive maintenance on a regular basis. When it comes to Cla-Val automatic control valves, no one can do a better job at keeping your valves in tip-top shape than our own in-house team of factory trained field service technicians.

Available Services

- Emergency repairs performed by certified technicians on call, 24 hours a day, 7 days a week
- Periodic inspection, maintenance and cleaning of installed valves, without removal from the pipeline
- Complete on-site valve refurbishment, including replacement of rubber goods and change-out of metal parts as needed
- Complete valve rebuilds in the shop
- Field retrofits of a wide array of accessories and components to enhance valve function, including the addition of the following:
 - 98 Series Pressure Management Pilot System to provide pressure on demand
 - 34 Series Electronic Actuators for advanced electronic control
 - 133VF Metering kit to add metering capability to an existing, installed valve
 - KO Anti-Cavitation trim to protect valve from cavitation damage
 - Installation of pressure gauges, position indicators, limit switches, etc.

Experience the Cla-Val Advantage

Not all valve repair companies are the same. There are many reasons why utilizing Cla-Val Pacific's Field Service team to handle your routine maintenance and emergency repairs is the best choice for maintenance support services.

- Factory trained and knowledgeable field technicians
- Safe work practices performed by confined space certified technicians
- Complete inventory of replacement parts, direct from the factory
- Technical and Engineering Support
- Customer-oriented approach to maintenance and repair
- Backed by the assurance that comes with working with the industry leader and the only control valve company with manufacturing in New Zealand
